ABOUT US

WHO WE ARE

A Team Built on Craft and Commitment

AXOVA Decoration L.L.C. is a UAE-based fit-out and construction company bringing together designers, engineers, and craftsmen under one roof. From interior and exterior fit-out to MEP and HVAC, we handle every layer of a project ourselves — which means fewer gaps, faster decisions, and a space that comes together exactly as envisioned.

WHY CHOOSE US

Experience You Can Build On

We bring design, engineering, and construction together in-house — so every project moves faster, communication stays clear, and quality never gets lost between contractors. From concept to handover, you work with one accountable team, not a chain of subcontractors.

Our Vision

Setting the Standard in Fit-Out

We're working to become one of the UAE's most trusted names in fit-out, exterior works, and construction — raising the bar on quality, innovation, and reliability, one space at a time.

Our Mission

Transforming Visions into Lasting Value

We build spaces that look beautiful and perform even better — combining fit-out, renovation, and construction into one process, backed by precision, safety, and real care for clients.

Our Values

The Foundation of Every Project

Integrity, quality, innovation, and commitment guide every project. We communicate openly, build sustainably, and treat every client relationship as one worth investing in long-term.

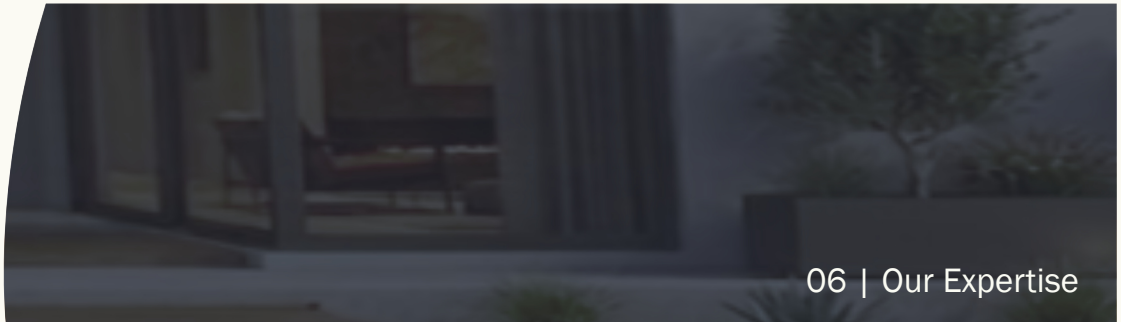

OUR PHILOSOPHY

Building Exceptional Spaces, Inside and Out

Every great space starts with a vision, and turning that vision into reality is what we do best. AXOVA delivers complete interior fit-out, exterior works, renovations, custom kitchen installations, swimming pool construction, MEP solutions, and HVAC systems — all under one roof. By bringing design, engineering, and project management together in-house, we offer seamless, turnkey solutions built for real-world function, long-term efficiency, and timeless style — whether it's a home, an office, a retail space, a restaurant, or a hospitality development.

OUR EXPERTISE

WHAT WE DO

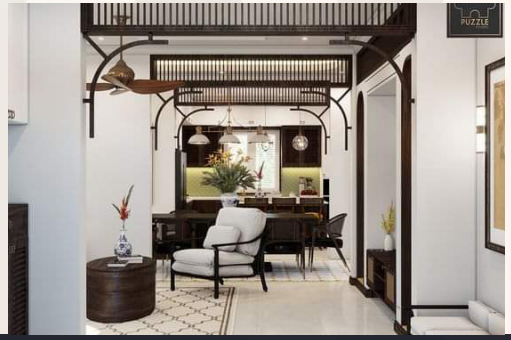

Craftsmanship that Shape Better Spaces

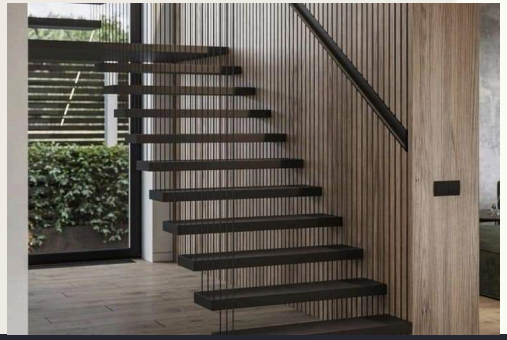

From interior design and landscaping to fit-out and project management, we bring every idea to life with craftsmanship built to last.

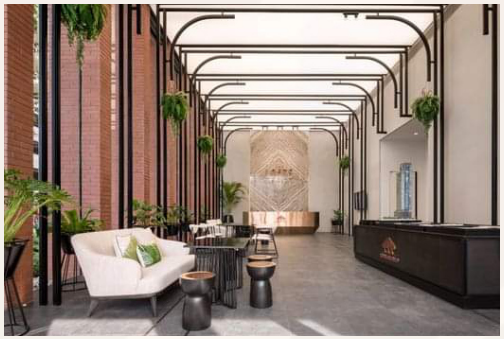

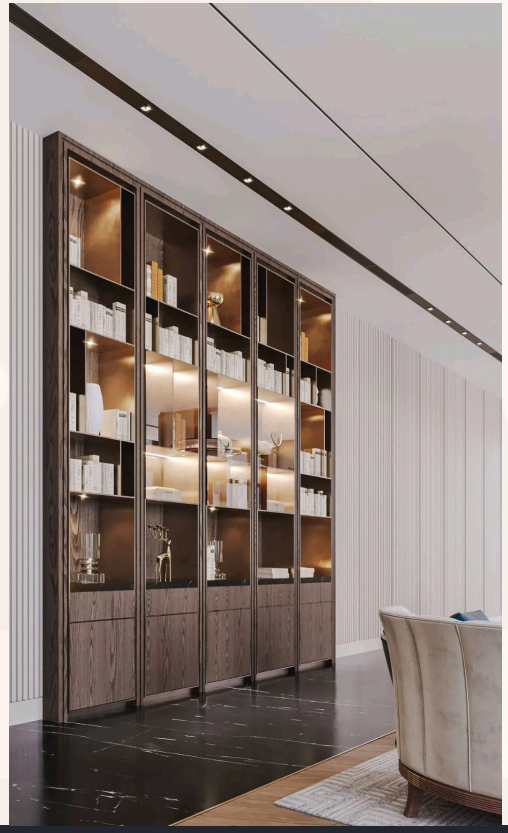

INTERIOR DESIGN

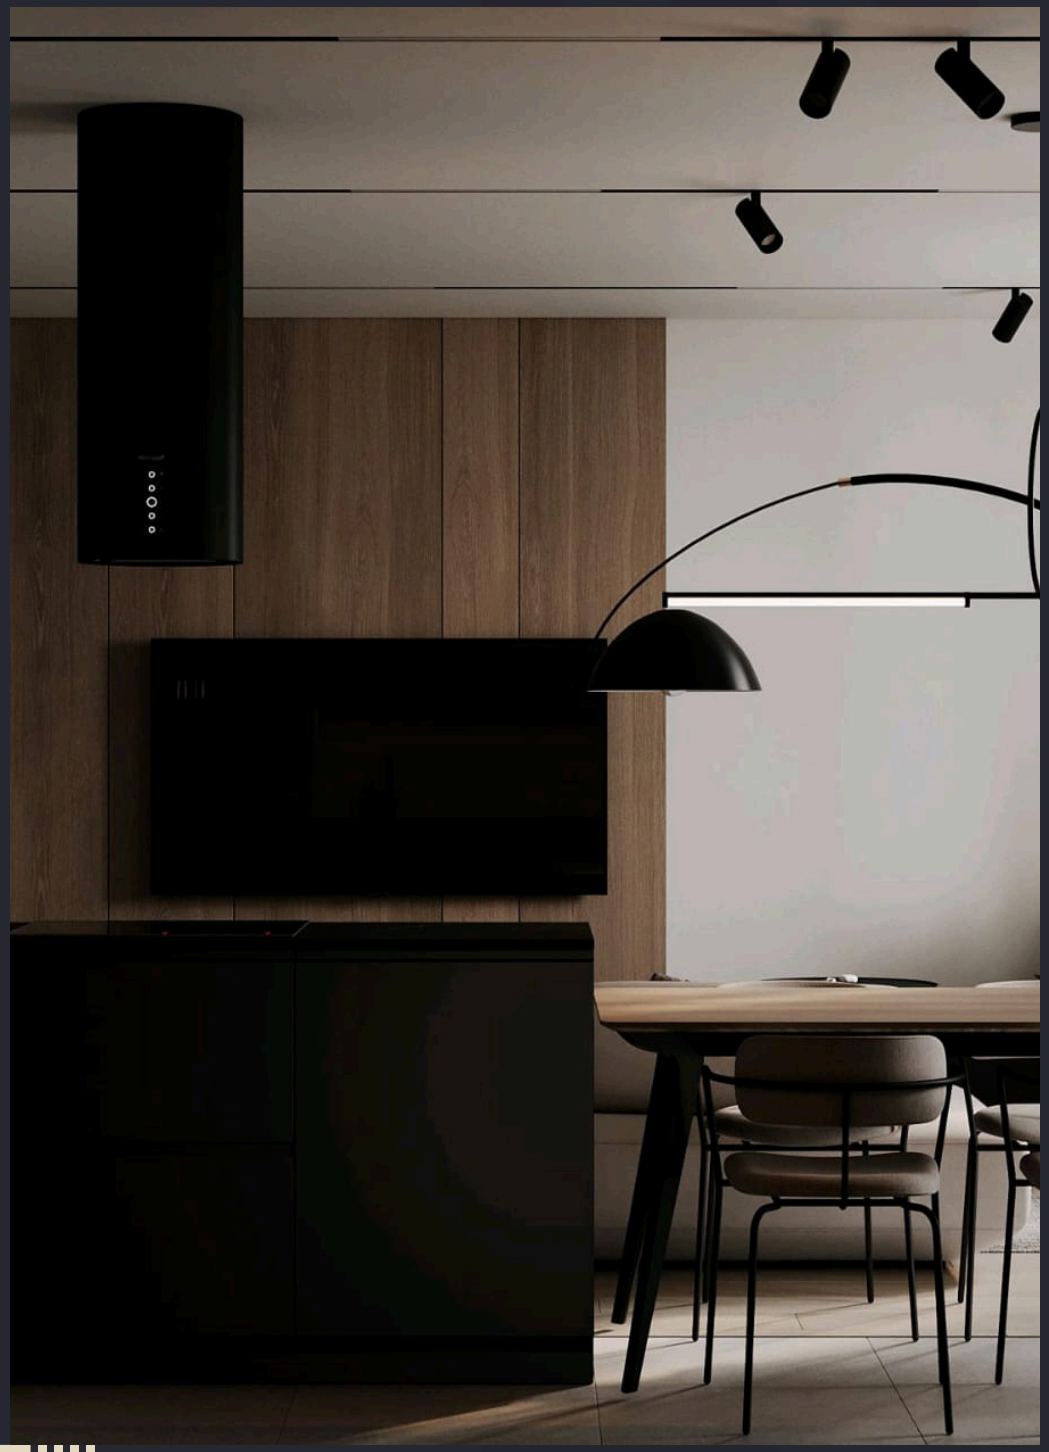

We curate materials, lighting, and furniture to create cohesive environments that reflect personality and purpose — whether residential, commercial, or hospitality.

- Concept development
- Space planning
- Material & finish selection
- 3D visualization
- Furniture & lighting design

INTERIOR & EXTERIOR FIT-OUT

We deliver complete fit-out solutions inside and out, transforming empty shells into fully functional, beautifully finished spaces ready to use.

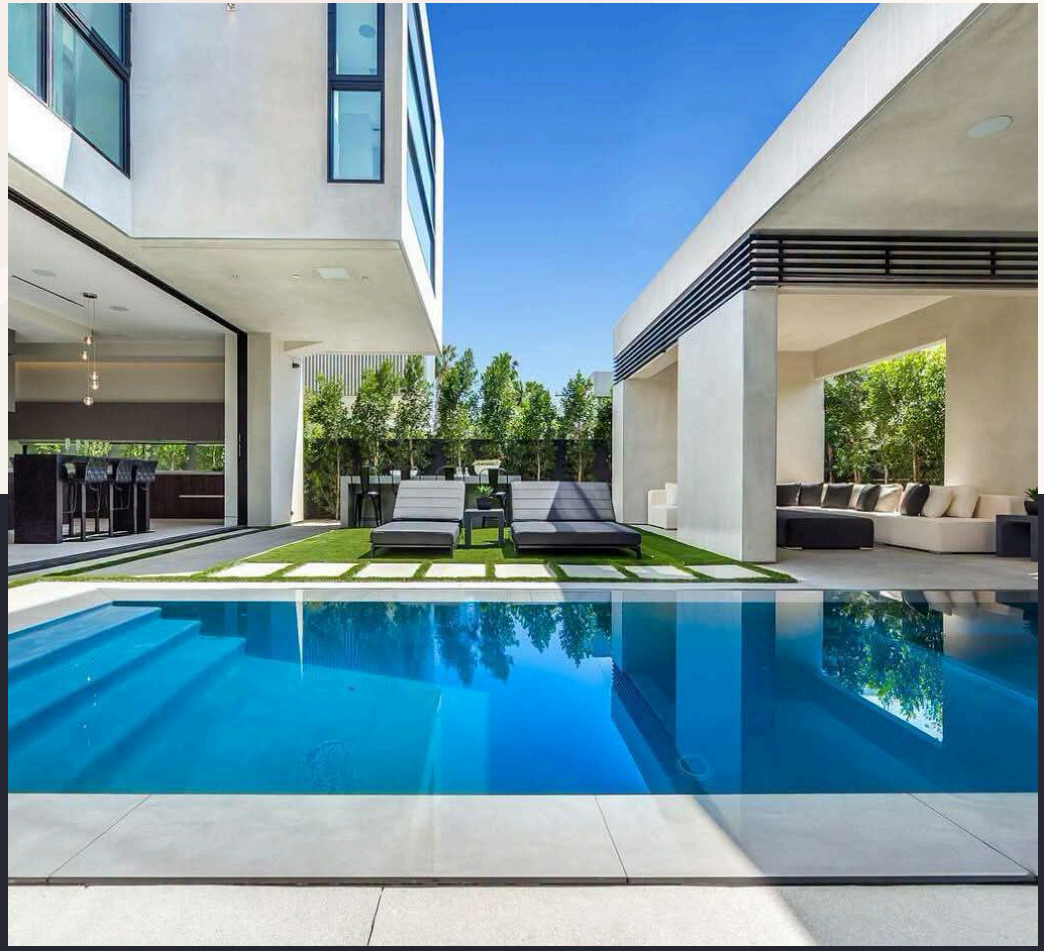

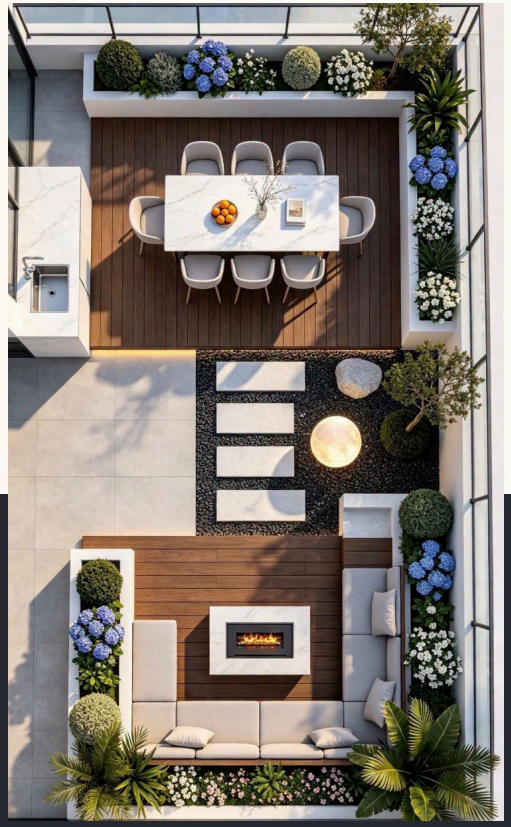

- Flooring, walls & ceilings
- Facade & exterior finishing
- Gypsum & paint works
- Custom joinery & carpentry
- Final handover & snagging

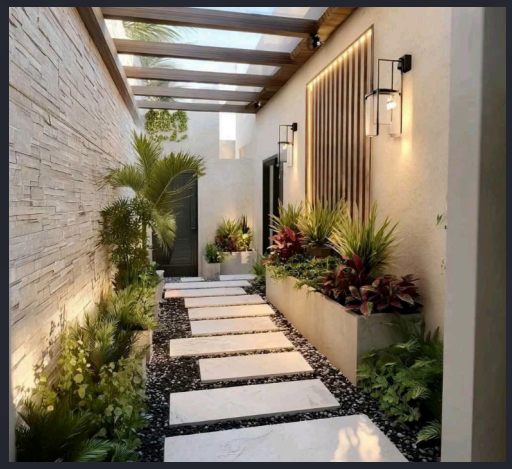

- Pool design & construction
- Hardscaping & softscaping
- Irrigation systems
- Outdoor ligthing
- Pool equipment & filtration

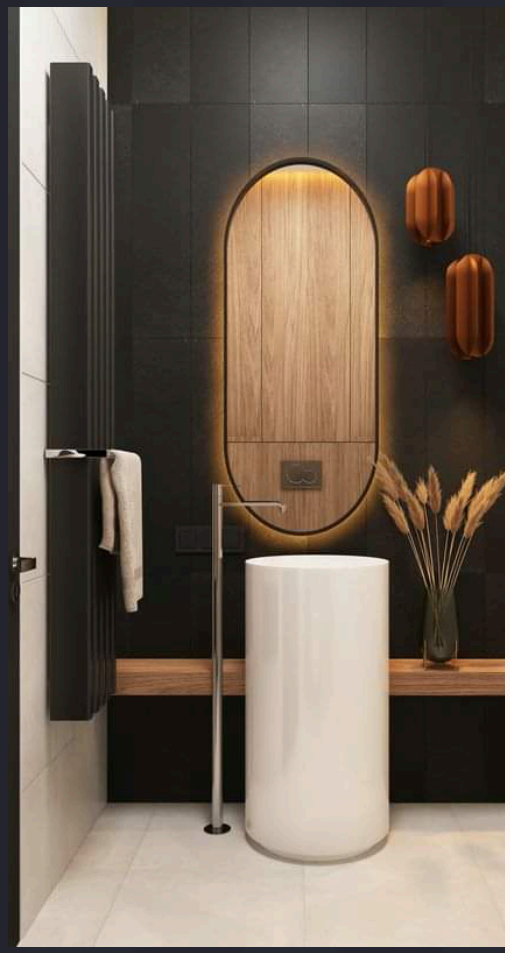

SWIMMING POOL & LANDSCAPING

We design and build pools and outdoor spaces that blend seamlessly with their surroundings, creating relaxing, resort-style environments at home or on-site.

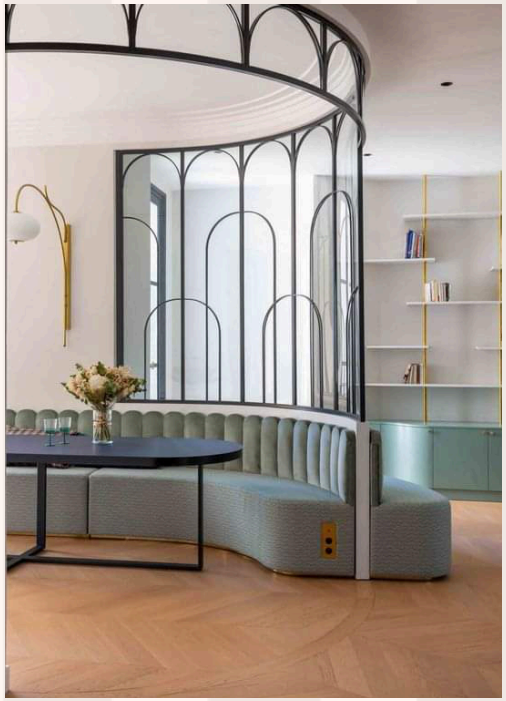

RENOVATION & TRANSFORMATION

- Demolition & —
- Structural updates
- Site assessment
- Final styling & finishing
- Redesign & re-finishing

We breathe new life into existing spaces, upgrading layouts, finishes, and functionality to match how you live or work today.

AC DUCTING & HVAC SOLUTIONS

- HVAC system design
- Ducting installation
- Ventilation solutions
- System testing & balancing

We design and install HVAC systems built for UAE conditions, ensuring efficient, reliable climate control across every space.

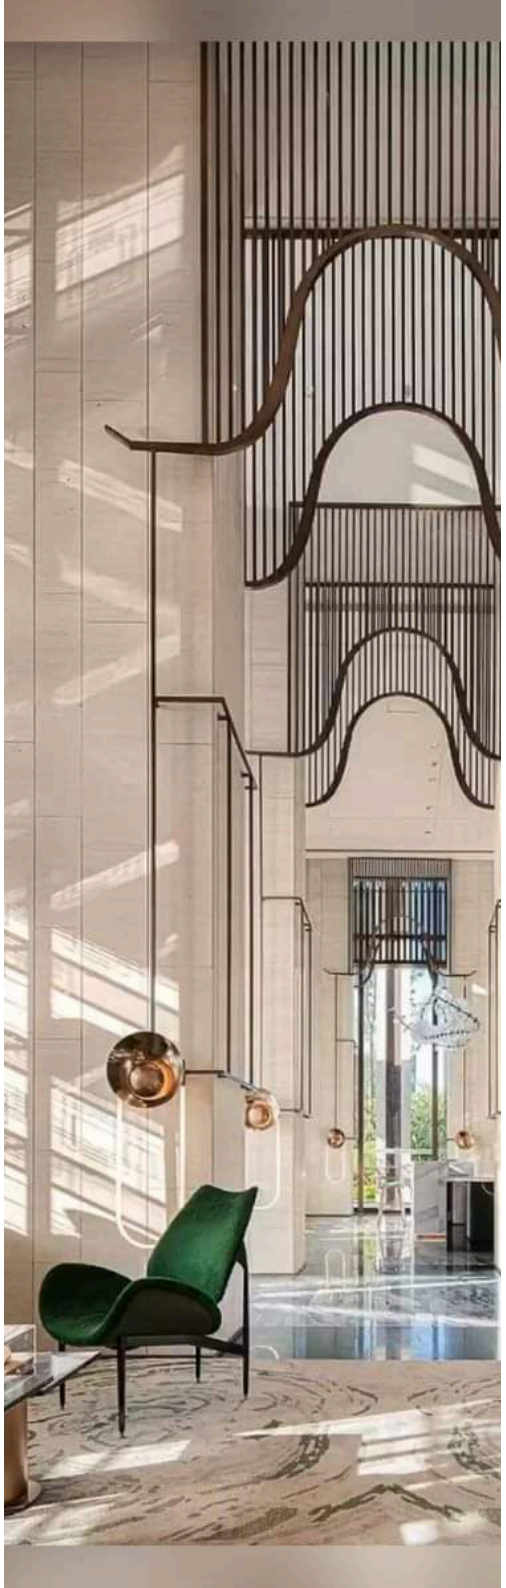

MEP SOLUTIONS

We handle the mechanical, electrical, and plumbing systems that keep every space safe, functional, and running smoothly behind the scenes.

- Electrical systems
- Plumbing & drainage
- Mechanical systems
- Fire & safety systems
- Testing & commissioning

PROJECT MANAGEMENT

We oversee every detail from planning to delivery, keeping your project on schedule, on budget, and to the highest quality standards.

- Timeline & budget planning
- Contractor & vendor coordination
- Quality control & Site supervision
- Progress reporting
- Risk & compliance management

OUR COMMITMENT

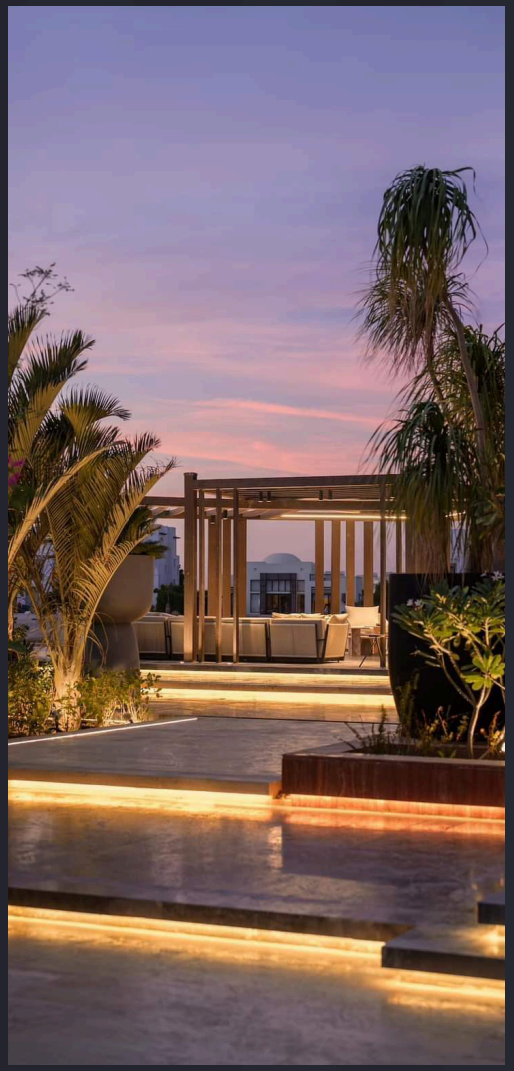

Built to Last, Delivered with Care

Every project we take on comes with a promise: precision in execution, transparency in communication, and a finished space that holds up — structurally and aesthetically — for years to come.

01 Consultation & Discovery

We start by understanding your goals, space, and requirements, laying the groundwork for a project built around your specific needs.

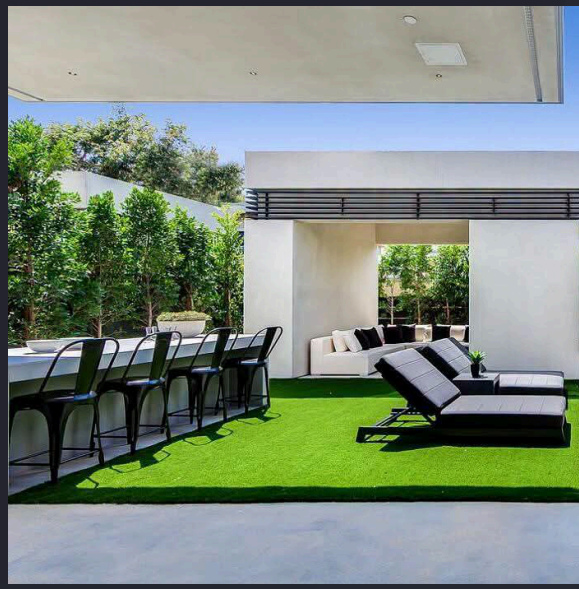

02 Ideation & Agreement

We shape initial ideas into a clear direction, aligning on scope, budget, and expectations before moving forward.

03 Concept & Design Development

We develop detailed designs and layouts, refining every element until the vision is fully defined and ready for execution.

04 Approvals & Procurement

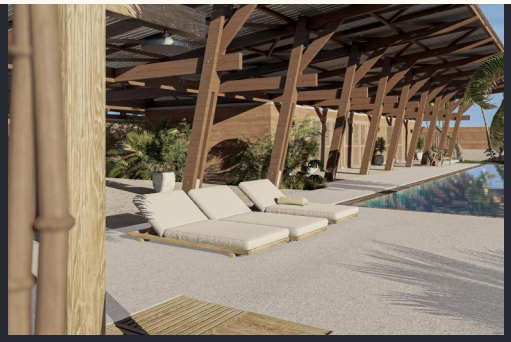

We manage all necessary permits and approvals while sourcing materials and resources, keeping the project moving without delays.

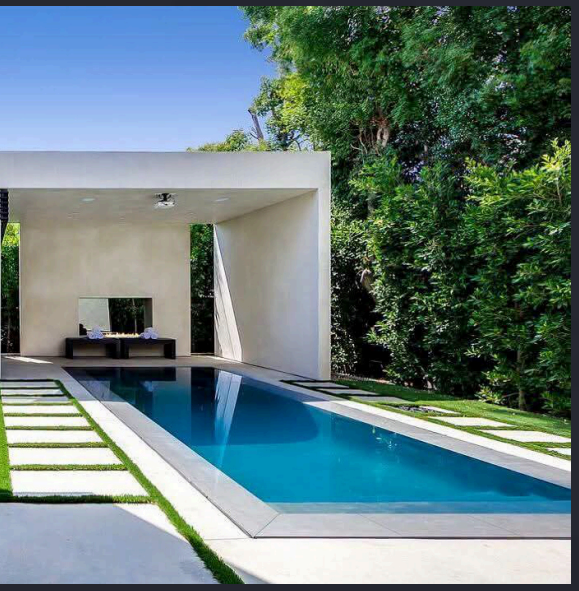

05 Build & Implementation

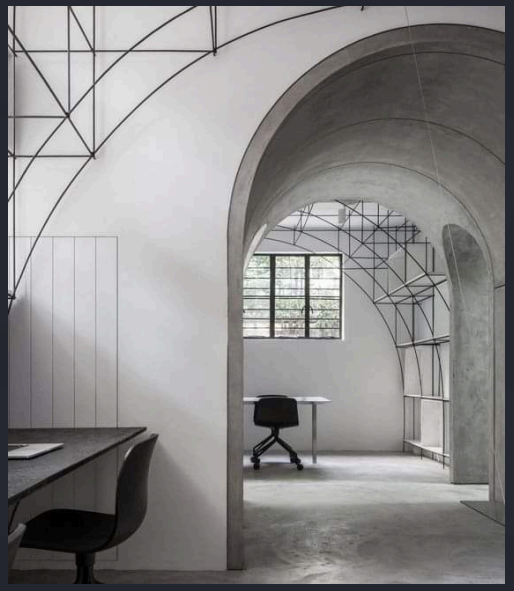

We bring the design to life on-site, managing construction and coordination across every trade with precision and care.

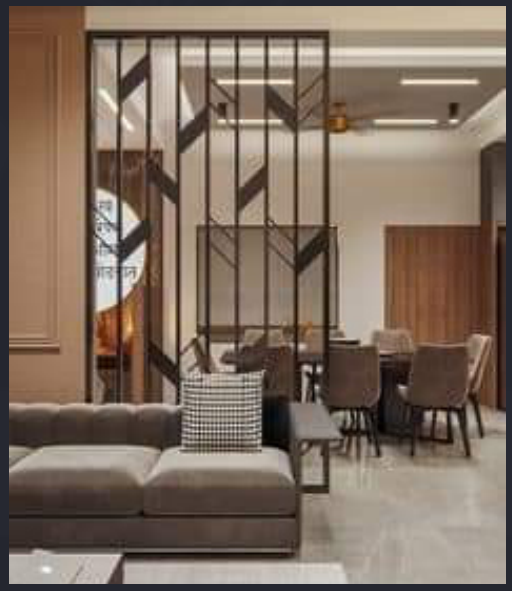

06 Quality Assurance & Handover

We inspect every detail before delivery, ensuring the finished space meets our standards and yours before final handover.

A Clear Process, Built for Results

We follow a clear, structured process from concept to completion — keeping every project transparent, on schedule, and built to the highest standard at every stage.
